ALL-NATURAL FAT METABOLIZER AND ENERGY BOOSTER

STORE IN A COOL, DRY PLACE.

TAKE IT

Place one dropper (1ml) under tongue for 30 seconds. Swallow.

DOSE

Twice daily or as directed by your healthcare professional.

Get Energy & Fight Fatigue

Life Drops are intended to help metabolize fats, carbohydrates, and amino acids in order to provide the best overall benefits of energy and fat loss without unwanted fatigue. Ingredients play a key role in increasing cellular energy metabolism, which not only leads to an increase in energy but also aids weight loss. *

As dieters consume fewer calories, they often cite fatigue as a side effect. Total Life Changes® has engineered this breakthrough product to support weight loss goals and increase energy on a cellular level. This dietary supplement is taken daily to support weight loss while implementing a suggested 1200-calorie diet.

Active Ingredients:

Life Drops Proprietary Blend (Green tea leaf extract)

Green tea extract is rich in antioxidants called catechins increases antioxidant protection against oxidative damage caused by exercise. This translates to better exercise performance and recovery. Green tea extract can aid weight loss by increasing the number of calories your body burns through thermogenesis. The catechins in green tea may help reduce blood pressure and improve blood fat levels, which promotes heart health. It has also been shown to increase insulin sensitivity and blood sugar tolerance, all while decreasing hemoglobin A1C and blood sugar levels.

Life Drops Proprietary Blend (Pomegranate fruit extract)

Pomegranates are among the healthiest fruits on Earth. They contain a range of beneficial plant compounds, unrivaled by other foods. Pomegranates contain punicalagins and punicalic acid, unique substances that are responsible for most of their health benefits.

The punicalagins in pomegranate juice have been shown to reduce inflammation. As a rich source of nitrates, pomegranate may improve exercise performance by increasing blood flow, and also boost memory.

Life Drops Proprietary Blend (Acerola fruit extract)

Acerola is a fruit most well-known for being extremely rich in vitamin C, and also contains vitamin A, thiamine, riboflavin, and niacin. Because of this, it's often used to help with or prevent colds or flu. It's also used as an antioxidant nutrient.

Vitamin B12

Life Drops is formulated with vitamin B12, which has one of the largest and most elaborate chemical structures of all the vitamins. This vitamin is essential for blood cell formation and supports metabolic health within the body.

Biotin

Biotin works with the B-Vitamins to convert carbohydrates into glucose and then convert glucose into ATP energy.

Thiamin

Thiamin is responsible for many enzymatic processes that lead to the growth and development of body cells. This vitamin is needed to form adenosine triphosphate (ATP), the molecule that all cells can use as an energy source.

Vitamin B5 (Pantothenic Acid)

Vitamin B5 works in conjunction with the other B vitamins to produce energy from food. It is also critical to the production of red blood cells and aids in the breakdown of fats and carbohydrates.

Niacin

Niacin aids the body in improving circulation, suppressing inflammation and converting food carbohydrates to glucose, which is the most easily used source of energy.

Vitamin B6

Vitamin B6 assists in the absorption of vitamin B12, which works with eight other B vitamins to provide the body with more energy in the form of glucose.

Best Used With:

Resolution Drops dietary supplement suppresses appetite and offers aggressive weight loss.*

Supplement Facts

	Amount Per Serving	% Daily Value
Serving Size (1ml) Serving Per Container 60
